We of all Humanity, The. Paperback. Condition: New. 30 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. The scientific proof of the one true godthe me postulate includes both the original and modified version of the postulate. The original postulate was changed after the author better understood two events that occurred in 1998, and 1999. The events, integrated into the life of the author by the creator of humanity, provided the wavelength and frequency necessary to scientifically prove, the we of all humanity is integrated into the creator of humanity. The scientific proof of the one true godthe me postulate is therefore not an academic exercise, is instead one that can be proven or disproven using existing technology. The simple truth is the universe cannot be defined by any Hang-My-Hat-On-Theory that denies the universe is integrated into the creator of humanity because the creator is an integral part of the universe. If the scientific community would include the art of sensing the whisper of the one true godthe me in scientific theory, there would be no secrets of the universe because the creator would guide each every scientist to understand the process of creationary evolution used to create the universe. The postulate is written in a modified version of The-Non-Conventional-Writing-Style, Use-Of-Color-Coding because including all of the elements of The-Style would make the text virtually unreadable. Each every element of The-Style is intended to help the reader better understand the root cause of humanities problems, including global warming, is The-(Generational-effect-Of-BlackWhite-Parenting-With-Fear, A-Lack-Of-lamal-Before-The-Age-Of-Two), and choices made with the blessing of free will. The-Style is also being used as a visual...
