Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The story of time travel you are about to read, while a work of fiction, is largely based on real science, real people and real events. Where fact leaves off and fiction begins is for you to decide. Do a search on just about anything in this book and make up your own mind what is real . In this second book of the Quantum Lace series, Lady Bridgit Darnell awoke to find herself clinging to a life-preserver, the water thick with oil. Screams and hollow cries filled the air and the salt water seemed to shower her from both above and below as what she would later learn were German planes made several passes, strafing those bobbing about in the pandemonium, their bullets whizzing past and creating a bloody spray as they hit the water. Somehow, she found herself in the worst maritime disaster in British history - a disaster that occurred during World War II (and that Churchill refused to allow the news outlets to cover for fear of a further drop in morale). In that one single incident as many men, women and children died as in the Titanic and 9/11 disasters combined.
