Forgotten Books, United States, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from **Manufacturers Shipments, Inventories, and Orders: 1982-1990** Twenty-one of the 80 M3 industry category data series were affected by sic changes and were revised back to 1958 to retain data continuity. In addition, 11 other categories were redefined to provide more specific detail in industrial areas whose relative importance has increased significantly or where seasonal adjustment improvements might be expected. The results of these revisions due to the sic changes as well as technical notes on the methodology are summarized for the 20 major groups in Appendix D for shipments and inventories and Appendix E for new and unfilled orders. Since data were available on both the 1972 and 1987 sic basis only from the 1987 census, estimates of the effects on the annual data prior to 1987 were made using previously published information from other Census Bureau industry and product surveys.
