

Pro Silverlight 3 in VB

By Matthew MacDonald

aPress, United States, 2009. Paperback. Book Condition: New. 231 x 190 mm. Language: English . Brand New Book. Silverlight is a lightweight browser plug-in that frees your code from the traditional confines of the browser. It s a rules-changing, groundbreaking technology that allows you to run rich client applications right inside the browser. Even more impressively, it s able to host true applications in non-Microsoft browsers (like Firefox) and on non-Microsoft platforms (like Mac OS X). Silverlight is still new and evolving fast, and you need a reliable guidebook to make sense of it. Pro Silverlight 3 in VB, Second Edition is the perfect reference to ensure you are informed and up to date: you ll learn about the features that put Silverlight in direct competition with Adobe Flash, such as rich support for 2D drawing, animations, and media playback, and best of all, you ll experience the plumbing of and the design model of WPF through Silverlight--all of the same technology that developers use to design next-generation Windows applications. Author Matthew MacDonald provides an expertly crafted tutorial written from professional developer to professional developer. You ll learn to create rich media applications using Silverlight in the environment you re...
