POW. THE FIGHT CONTINUES AFTER THE BATTLE (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Past history, the story of Korea and the crises which faced our prisoners of war in that conflict from capture through Operation Big Switch and after, were all carefully considered and are presented in our report. The prisoner of war situation resulting from the Korean War has received a great deal of adverse publicity. As is stated in our account, much of that adverse publicity was due to lack of information and consequent misconceptions in regard to the problem. A few statistics may prove reassuring to anyone who thinks the Armed Forces were undermined by Communist propaganda in Korea. A total of about 1,600,000 Americans served in the Korean War. Of the 4,428 Americans who survived Communist imprisonment, only a maximum of 192 were found chargeable with serious offenses against comrades or the United States. Or put it another way. Only 1 out of 23 American POWs was suspected of serious misconduct. The contrast with civilian figures tells an interesting story. According to the latest FBI statistics, 1 in 15 persons in the United States has been arrested and fingerprinted for the commission, or the alleged commission, of criminal acts. When one realizes that the Armed Forces come from a cross-section of the national population, the record seems fine indeed. It seems better than that when one weighs in the balance the tremendous pressures the American POW s were under. Weighed in that balance, they cannot be found wanting. We examined the publicly alleged divergent action taken by the Services toward prisoners repatriated from Korea. The disposition of all cases was governed by the facts and circumstances surrounding each case, and was as consistent, equitable and uniform as could be...
