# LIVING IN A NETWORKED WORLD

Utz Verlag Gmbh Apr 2015, 2015. Taschenbuch. Condition: Neu. Neuware - The rapid progress of information technology allows for increasingly powerful software intensive embedded systems (machines) executing integrated applications connected by and to global networks. Thus these systems are more and more networked among each other, but also with data and services on the Internet. Intelligent solutions originate which gather processes of the living environment by means of sensors and actuators, connect them to virtual software worlds and interpret, monitor...
