

High Altitude Primates

Filesize: 2.04 MB

Reviews

It is in a single of my personal favorite publication. It is amongst the most amazing ebook i have read through. Your daily life period is going to be change when you comprehensive reading this article publication.

(Elton Turner)

HIGH ALTITUDE PRIMATES

Condition: New. Publisher/Verlag: Springer, Berlin | This volume examines how high altitude affects the behavior, ecology, evolution and conservation status of primates, especially in comparison to lowland populations. It gives examples of how geographic scales result in diversification and/or speciation. | The basic goal of the volume is to compile the most up to date research on how high altitude affects the behavior, ecology, evolution and conservation status of primates, especially in comparison to lowland populations. Historically, the majority of primate studies have focused on lowland populations. However, as the lowlands have been disappearing, more and more primatologists have begun studying populations located in higher altitudes. High altitude populations are important not only because of their uniqueness, but also because they highlight the range of primate adaptability and the complex variables that are involved in primate evolution. These populations are good examples of how geographic scales result in diversification and/or speciation. Yet, there have been very few papers addressing how this high altitude environment affects the behavior, ecology, and conservation status of these primates. | High Altitude Prosimian Primates.- 1. Effects of Altitude on the Conservation Biogeography of Lemurs in South East Madagascar.- 2. Hibernation patterns of dwarf lemurs in the high altitude forests of eastern Madagascar.- 3. Altitudinal Distribution and Ranging Patterns of Pygmy Tarsiers (*Tarsius pumilus*).- High Altitude Monkeys.- 4. Biogeography and conservation of Andean primates in Peru.- 5. Population density and ecological traits of high land woolly monkeys at Cueva de los Guacharos National Park, Colombia.- 6. Seed Dispersal by Woolly Monkeys in Cueva de los Guacharos National Park (Colombia): An amazonian primate dispersing montane plants.- 7. Distribution and ecology of the most tropical of the high-elevation montane colobines: the ebony langur on Java.- 8. Snow tolerance of Japanese macaques inhabiting high-latitude mountainous forests of...
