This empowering self-help book is like a mental multivitamin booster shot, providing you with high-level knowledge and concepts that will make you more consciously and intellectually complete. This book helps to fill the obvious gap that often becomes socially and culturally clear to others, especially when you speak, write, or take tests in front of those who actually know the intellect, knowledge, and logic of society better than you do Even if you were raised by great parents, if they weren't doctors, lawyers, and PhDs, then they probably didn't have the knowledge base and social sophistication to prepare you to compete against the more socially advantaged in today's age of information, technology, and ideas.
