DESIGN FOR ADDITIVE MANUFACTURING

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Guidelines for cost effective manufacturing | Additive Manufacturing is a new manufacturing method which adds material layer-by-layer to produce an object. This report set out to investigate a number of questions relating to Additive Manufacturing and its implications on current design practice, products and users. An introduction to Additive Manufacture as a process and how it has evolved from Rapid Prototyping is given. This report documents the Design for Manufacture constraints which...

Reviews

The publication is fantastic and great. It can be rally exciting throgh reading period of time. I am just very happy to inform you that this is the greatest publication i actually have read in my very own daily life and could be he very best ebook for at any time.

-- **Prof. Alvis Wuckert**

An extremely amazing publication with lucid and perfect answers. It is writter in easy phrases instead of confusing. I am just very happy to inform you that this is the best pdf we have read in my own daily life and can be he greatest publication for at any time.

-- **Mrs. Madonna Bosco**

This created publication is wonderful. It really is basic but shocks within the 50 % from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.
