Editor Medical Brief: --I was called on August 3, 1882, to see M. B., aged four years; found the little boy with all the symptoms of severe congestive fever. We could not arouse the little fellow fully for three days, there being a positive indication for aconite and belladonna. I commenced, at once, their use in minute doses, and also applied mustard on the extremities, and on the temples, which was kept on for about six hours, when the plaster was taken off, and was not applied any more. The first three days it seemed as if my little...

Reviews

These kinds of publication is the greatest pdf available. Better then never, though i am quite late in start reading this one. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Lorena Streich

It becomes an awesome pdf that I have actually read through. It really is full of knowledge and wisdom You may like how the writer compose this book.
