

Polymeric Carbons: Carbon Fibre, Glass and Char (Paperback)

Filesize: 4.34 MB

Reviews

The publication is easy in read through preferable to fully grasp. It is writter in simple phrases instead of hard to understand. You will not sense monotony at at any moment of your respective time (that's what catalogs are for concerning if you request me).

(Kevin Bergstrom Sr.)

POLYMERIC CARBONS: CARBON FIBRE, GLASS AND CHAR (PAPERBACK)

To get **Polymeric Carbons: Carbon Fibre, Glass and Char (Paperback)** eBook, remember to access the button beneath and download the ebook or have access to other information which are related to POLYMERIC CARBONS: CARBON FIBRE, GLASS AND CHAR (PAPERBACK) book.

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.When many polymers are heated they transform directly into carbons, without passing through an intermediate liquid paste. Such carbons are termed polymeric carbons. Phenolic resins yield an isotropic impervious black glassy carbon which is hard enough to scratch window glass and has interesting electronic properties. polyacrylonitrile fibres yield carbon fibre with enormous stiffness and strength. Combinations of the two produce the strongest carbon material (carbon-fibre-reinforced carbon). Carbon-fibre-reinforced plastics are revolutionary low density-high-stiffness materials. This 1976 book brings together data from the authors work to describe the manufacture of polymeric carbons. It provides a description of physical, mechanical and chemical properties which are related as closely as possible to the revealed structure. Emphasis is placed on the more interesting aspects, such as development of high-strength, high-stiffness material, the semi-conducting behaviour of intermediate materials and the absorption of gases in the more open structure of absorbent chracoals.
