*Here is the finest ebook i have got read until now. It really is simplistic but excitement within the 50 percent in the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

## FROM GOD TO DNA A PROVOCATIVE JOURNEY

LifeRichPublishing. Paperback. Condition: New. 146 pages. Dimensions: 9.0in. x 6.0in. x 0.4in. Clashes of faith and religion are common. With more people receiving higher education and medical science making enormous advancements in understanding the brain, the case for reason is gaining strength. Stokes takes the reader on a provocative, personal journey. Starting with history, he explores how the theology of the Christian Church was hammered out in acrimony, and finally enforced by the powers of the state and the terrors of the Inquisition. For the author, this is no basis for cosmic truth. In 1620, a new methodology was introduced for pursuing truth. It challenged the older top-down pronouncements with a new bottoms up approach using experimentation. If you still want miracles, look no further than the human body. DNA, our internal chemistry set, performs all the functions that were shrouded in mystery and attributed to religion. We eat hamburgers and our miraculous body chemistry converts them into consciousness, feelings, thinking and memories. DNA encodes the information to create, sustain, and repair life. Its three goals of surviving, reproducing and adapting need our participation to survive and reproduce. So it generates good feelings for things that enhance life and bad feelings for things that dont. It provides an internal moral code to do no harm and provides mirror neurons to feel the pain of others. It is the only thing that approaches immortality, moving from generation to generation for millions of years and taking a bit of our legacy with it. Didnt Jesus say: The Kingdom of God is within you This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
