DNA on the Adam Lanza clothes, rifle, cartridges, most importantly the gloves which were open fingered therefore DNA on the rifle without doubt. All that police evidence had DNA on it if it s genuine evidence. All that DNA should be compared to the DNA on Ryan Lanza s driver s license which Adam was supposed to have on him. If the driver s licence doesn t show two different sets of DNA (brothers have different DNA), and only one person s, that will be Ryan s. John Rapaport has said we will never get the full medical picture of Adam Lanza because it s a defeat for Big Pharma that isn t the reason at all, the reason we ll never get the full medical history is because it will point to Ryan Lanza. The DNA from anything surviving will turn out to be Ryan Lanza s. If all this were true. It s not. See what we know for sure.
