Poisonous Plants: A Guide For Parents & Childcare Providers.

By Dauncey, Elizabeth A. With Contributions By Hawkins, Leonard & Kennedy, Katherine.

Royal Botanic Gardens, London, 2010. Softcover. Condition: New. 180 pages. Softcover. New book. . This handy guidebook is the result of a sixteen-year collaboration between the Royal Botanic Gardens, Kew and the Guy's and St Thomas's Hospital Poisons Unit. Written with both botanical and toxicological authority, the book offers concise details of the 130 most poisonous plants that are likely to be encountered in the home, garden, and countryside, together with a summary of likely symptoms should they inadvertently be touched or eaten. Photographs of the plants are included to aid identification, and a brief guide to safe plants offers suggestions for the creation of a hazard-free garden. Includes 300 color plates. Contents Glossary First aid and emergency advice from the Medical Toxicology Information Services Introduction A safe garden Fruiting plants of 'low' toxicity The most toxic plants (at a glance) Plant profiles Outdoor plants Indoor plants Sources of further information Acknowledgements Key to berry and flower colour Index (Key Words: Poisonous Plants, Botany, Child Care, Elizabeth A. Dauncey, Biological Sciences, Leonard Hawkins, Katherine Kennedy, Gardening, Medical Toxicology, First Aid Treatment). book.

Reviews

An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It has been written in an exceptionally basic way and it is only right after I finished reading this ebook in which in fact modified me, affect the way I really believe.

-- Beverly Hoppe

Extremely helpful for all class of individuals. Better than never, though I am quite late in start reading this one. I realized this publication from my I and dad suggested this ebook to discover.
