Excerpt: . . . 11 - The finding is from a study of a program that offers more expensive, different services from those offered through after-school programs. - QOP was a small demonstration program operating with approximately two and a half times the funding per student than a 21st CCLC program. It also paid cash incentives to participants for various accomplishments and to staff based on student participation hours. - Methodological problems with the study. - Although originally the study was a random assignment design, the study appeared to include follow-up information only for a subset of the originally selected study participants who remained in the program (Hahn, Andrew, Tom Leavitt, and Paul Aaron. Evaluation of the Quantum Opportunities Program (QOP). Did the Program Work A Report of the Post Secondary Outcomes and Cost-Effectiveness of the QOP Program (1989 - 93).
