WHY CUSTER WAS NEVER WARNED: THE FORGOTTEN STORY OF THE TRUE GENESIS OF AMERICAS MOST ICONIC MILITARY DISASTER, CUSTERS LAST STAND

[DOWNLOAD](#)

Universal Publishers. Paperback. Condition: New. 242 pages. Dimensions: 9.0in. x 6.0in. x 0.6in. For the first time, this ground-breaking book tells the forgotten story of the true genesis of the June 25, 1876 disaster along the Little Bighorn, Custers Last Stand. The failure of the southern column to continue to advance north after the battle of the Rosebud set the stage for the annihilation of George Armstrong Custer and his five companies of the 7th Cavalry at the Little Bighorn. For nearly 150 years, almost everything possible already has been written about the fascinating story of Custers Last Stand except the analysis and new views that have been emphasized in this most revealing book: the true causes and culprits of the bloody fiasco at the Little Bighorn on June 25, 1876 that shocked the American nation like no other post-Civil War event. Phillip Thomas Tucker, Ph. D. , the author of nearly 30 books and including award winners, has contributed many fresh and new views about Custers Last Stand, revealing what has long been most often left out of the historical record. Where possible, Tucker has relied on primary source material, including period newspapers, to enlighten readers about the most forgotten and overlooked causes of Lieutenant George Armstrong Custers and his commands annihilation in the bloody showdown along the Little Bighorn. These new explanations and fresh interpretations about how and why the battle of the Little Bighorn, perhaps the most controversial battle in American history, ultimately played out so disastrously like a Greek tragedy. Therefore, the author has exposed those individuals, Americas leading military and civilian officials, who were most responsible for the greatest military disaster in the post-Civil War period. Dr. Tucker has presented the unvarnished truths about what really happened and exactly why by revealing the Machiavellian currents and...
