Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Essays on Infant Therapeutics: To Which Are Added, Observations on Ergot, History of the Origin of the Use of Mercury in Inflammatory Complaints; Together With the Statistics of the Deaths From Poisoning in New York in the Years 1841-2-3 The account Of the cases Of deaths by poisoning in the city and county of New York, has been introduced with two Objects in view: to call the attention Of the profession to the importance of having the Office Of Coroner filled by a medical man, and to show the value of statistical reports of the cases coming under his notice. If these were carefully made and regularly reported, it is believed that much interesting matter would be presented to the public which is now entirely buried in Oblivion, and might possibly result in the enactment of some law to regulate the sale of poisons. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
