

The Big Bang to Now: All of Time in Six Chunks

By Terry Herman Sissons Ph. D

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 272 pages. Dimensions: 9.0in. x 6.0in. x 0.6in. If you are among the many who think of billions, or a hundred thousand, or tens of millions of years ago as all just a very very long time ago, The Big Bang to Now: All of Time in Six Chunks will be an enlightening surprise. Terry Sissons divides time into six chunks - fewer numbers than are in a telephone number - to create a review of the 13.7 billion years of all of time. The surprise is that learning just these six chunks can transform one's understanding of time from grand confusion to quite amazing clarity. The Big Bang to Now is not packed with dense pages detailing what scientists have learned about our past. These details are important, but learning too much detail before one sees the big picture often leads not to knowledge and understanding but to bewilderment. The Big Bang to Now tells the story of time in less than 100 key events, and with a large amount of reassuring white space. Each page describes just one important event, like the Big...
