Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Census of Construction Industries, 1987: Geographic Area Series, United States Summary, Establishments With and Without Payroll Construction establishments often engage in various construction activities. It is necessary, however, to assign a single industry code to the establishment based on its major activity. Therefore, the statistics shown for an industry reflect not only the primary activity of the establishments in the industry, but also their secondary activities. The industry reports, however, do present data on the extent of secondary activities. A revised edition of the Manual was issued in 1987. Minor modifications were made to three industries in the construction sector: sic 1611, Highway and Street Construction Contractors, Except Elevated Highways; sic 1629, Heavy Construction Contractors, n.e.c.; and sic 1771, Concrete Work Special Trade Contractors. The extent of these modifications are explained in the specific texts for those industries. Bridge tables are also included showing selected data tabulated using both the previous classification system and the 1987 revision.
