Packt Publishing Limited, United Kingdom, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.

Accomplish the power of data in your business by building advanced predictive modelling applications with TensorFlow. About This Book * A quick guide to gain hands-on experience with deep learning in different domains such as digit/image classification, and texts * Build your own smart, predictive models with TensorFlow using easy-to-follow approach mentioned in the book * Understand deep learning and predictive analytics along with its challenges and best practices Who This Book Is For This book is intended for anyone who wants to build predictive models with the power of TensorFlow from scratch. If you want to build your own extensive applications which work, and can predict smart decisions in the future then this book is what you need! What You Will Learn * Get a solid and theoretical understanding of linear algebra, statistics, and probability for predictive modeling * Develop predictive models using classification, regression, and clustering algorithms * Develop predictive models for NLP * Learn how to use reinforcement learning for predictive analytics * Factorization Machines for advanced recommendation systems * Get a hands-on understanding of deep learning architectures for advanced predictive analytics * Learn how to use deep Neural Networks for predictive analytics * See how to use recurrent Neural Networks for predictive analytics * Convolutional Neural Networks for emotion recognition, image classification, and sentiment analysis In Detail Predictive analytics discovers hidden patterns from structured and unstructured data for automated decision-making in business intelligence. This book will help you build, tune, and deploy predictive models with TensorFlow in three main sections. The first section covers linear algebra, statistics, and probability theory for predictive modeling. The second section covers developing predictive models via supervised (classification and regression) and...
