# SEED SURVIVAL IN GENE BANKS - GENETIC AND BIOCHEMICAL ASPECTS OF SEED DETERIORATION IN BARLEY

Cuvillier Verlag Sep 2011, 2011. Taschenbuch. Book Condition: Neu. 211x146x15 mm. Neuware - Against the background of 7.4 million accessions stored in genebanks, long-term survival of stored seeds is an important trait. This study intended to elucidate genetic and biochemical mechanisms underlying barley (*Hordeum vulgare* L.) seed deterioration with respect to genetic diversity at different storage treatments ranging from cold storage with low seed moisture content (smc) to experimental seed ageing with high smc. On the basis of an assumed...

## Reviews

*This written publication is wonderful. It really is simplified but unexpected situations inside the fifty percent in the pdf. You will not truly feel monotony at any moment of the time (that's what catalogues are for about in the event you request me).*

-- **Dr. Jamar Willms**

*This publication will be worth purchasing. It is written in straightforward words and not hard to understand. I am just very happy to explain how here is the best ebook we have read in my own lifestyle and might be the best publication for at any time.*

-- **Devante Mante**
