University of Minnesota Press, United States, 2008. Paperback. Condition: New. Language: English . Brand New Book. Evaluates for the first time one of the foundational works in architecture criticism. Immediately on its publication in 1972, *Learning from Las Vegas*, by Robert Venturi, Denise Scott Brown, and Steven Izenour, was hailed as a transformative work in the history and theory of architecture, liberating those in architecture who were trying to find a way out of the straitjacket of architectural orthodoxies. Resonating far beyond the professional and institutional boundaries of the field, the book contributed to a thorough rethinking of modernism and was subsequently taken up as an early manifestation and progenitor of postmodernism.
