AUTHORHOUSE, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.While working at the Argonne National Laboratory by Chicago, Illinois, in the years 1990-96, Dr. Bottoni proposed to the Argonne management to invite his old acquaintance, Prof. Katsuhiko Sakai, of the Osaka University, Japan, to cooperate with him, during a one-year stay, on numerical problems related to thermal and fluid-dynamics computer simulations. At the end of the stay Prof. Sakai wrote a report documenting his work made with Dr. Bottoni and, part time, with a younger colleague, Dr. Sun. At this point the section manager, who had not cooperated to the technical work, pretended to be considered as co-author of the report, excluding Dr. Bottoni. This blatant violation of professional ethics was reported to higher management levels which, however, engaged in a cover-up policy aiming at tolerating the violation of the Code of Ethics established by the Laboratory. The book uncovers a full chain of violations so that the question arises whether the Code of Ethics is only a piece of paper. The author not only claims justice, but also thinks that the American taxpayer should be made aware of a state of affairs which implies waste of time and of financial resources.
