AGRICULTURE WITHOUT IRRIGATION IN THE SAHARA DESERT (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Agriculture Without Irrigation in the Sahara Desert In View Of the interest in farming without irrigation that is now being manifested in the arid portion of the United States, an account of a region where agriculture is carried on under extremely adverse natural conditions is particularly timely. The present paper deals with a highly developed system of date-palm culture in the Oued Souf, a remarkable and little-known part Of the Sahara Desert in northern Africa. Strictly speaking, it is not dry - land agriculture with which we have to do in the Souf region, for while the rainfall is practically nothing and irrigation is impracticable, the roots of the trees quickly find their way to ground Water. However, it is quite possible that similar conditions may be found to exist in this country in some parts of the desert region Of the Southwest, and that the Souf system, with or without irrigation, can be utilized there on a small scale in growing certain orchard crops with a View to forcing fruit to early maturity, so that it can be put upon the market much in ad vance Of the bulk Of the crop. The Oued Souf was Visited by Mr. Kearney at the end Of Novem ber, 1904, the journey having been made from Nefta, in southwestern Tunis, Where he had Spent Several weeks in a study Of the date palm. This expedition to northern Africa was made under the auspices Of the Office of Seed and Plant Introduction and Distribution of the Bureau of Plant Industry. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an...
