

## Perforated Casing and Screen Pipe in Oil Wells (Classic Reprint) (Hardback)

By E W Waggy

Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Perforated Casing and Screen Pipe in Oil Wells In order to clarify the meaning of the text, as well as to avoid confusion that might arise from the use of local terms, a brief explanation is given of the following terms and words used in this report: An adapter is a tool used to connect a smaller size of casing to a larger size. It is used when several strings of casing have been inserted in the same well and the inside string has been cut off below the top of the hole. The adapter is set on top of the inside casing to keep it from getting damaged, and also serves as a guide when a. Bailer or tubing is run into the well. The band wheel is part of the equipment of a standard drill ing rig; it is a large pulley 9 to 16 feet in diameter, made suitable to carry a ?at belt 10 to 12 inches wide. By means of this belt the power from the engine is imparted to the band wheel. The term bean...
