

Horses and Horsemanship in the Athenian Agora (Paperback)

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

HORSES AND HORSEMANSHIP IN THE ATHENIAN AGORA (PAPERBACK)

American School of Classical Studies at Athens, United States, 1998. Paperback. Condition: New. Volume XXIV ed.. Language: English . Brand New Book. This concise and beautifully illustrated book demonstrates the many roles played by the horse in the lives of the Greeks, from its place in myth and early history to its significance as a marker of social status and its use in warfare, transportation, games, and festivals. From their arrival in Greece, at the start of the Middle Bronze Age (ca. 2000 B.C.), horses were a powerful symbol of rank. Bridles and other horse trappings are often found in graves, alongside vases depicting horses grazing, racing, and parading. Sculpture is also full of horse imagery, from monumental equestrian statues (a bronze leg and gilded sword are all that remain from one of these) to tiny terracotta figurines, perhaps the toys of a child. As well as presenting many examples of horse imagery found in the Agora, the author reports on recent finds near the ancient hipparchion, the stables of the Athenian cavalry.
