

Contributions from the Anna M.R. Lauder Department of Public Health, Yale University. School of Medicine Volume 3

By Yale University School of Health

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 Excerpt: .but for the purpose of this survey we have considered as milk depots only those places where milk is handled for distribution on a large scale, such as pasteurizing plants, etc. The classes of milk depots in Chicago, for example, are: 1. Plants in which pasteurization alone is carried on. 2. Plants bottling the milk. The milk is received, taken to a pasteurization plant and then returned to the station and bottled. 3. Plants in which the milk is received, pasteurized and bottled in one place. The frequency of inspections varies greatly. In the larger cities inspections are made at least weekly. In Baltimore they are made four times a week, and in Los Angeles and Boston, daily. For the second group of cities the procedure varies from daily to once a year. Only 15 of the smaller cities inspect weekly or oftener, the majority reporting...

Reviews

This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.

-- Andres Bashirian

Comprehensive guide for publication fanatics. This really is for all who statte there had not been a well worth reading through. I discovered this ebook from my dad and i encouraged this book to find out.

-- Lacy Goldner
