

And application of solar photovoltaic technology (higher vocational education planning skills-based training materials)

Filesize: 6.36 MB

Reviews

Extensive guide! Its this sort of very good study. It is actually full of knowledge and wisdom I found out this pdf from my i and dad suggested this ebook to understand.

(Melany Bogisich)

AND APPLICATION OF SOLAR PHOTOVOLTAIC TECHNOLOGY (HIGHER VOCATIONAL EDUCATION PLANNING SKILLS-BASED TRAINING MATERIALS)

DOWNLOAD

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 189 Publisher: Southeast University Pub. Date :2011-05-01 version 1. Solar photovoltaic industry has become a new bright spot in the energy industry's largest solar photovoltaic power generation technology has been applied widely. the development of photovoltaic industry requires a lot of photovoltaic technology and practitioners. and application of solar photovoltaic technology, based on the reality of this point from the project in layman's language. are discussed in detail solar PV cells and battery components production process and performance testing. Solar photovoltaic system components. design. installation. construction and maintenance. and details of the solar photovoltaic technology. The book is divided into ten topics: solar radiation. solar cells. solar modules. controllers. inverters. off-grid solar PV system energy storage. solar photovoltaic system design. solar photovoltaic technology. solar light V Industry Overview and use of nuclear energy and engineering cases. This book is based on the composition of solar photovoltaic systems and applications. gradual. progressive. project-based teaching to write content. combine theory and practical training. making the written content of smooth. practical and close to the actual production; materials closely around the solar photovoltaic technology capabilities and basic quality of the training the main line. highlighting the solar photovoltaic industry. basic skills and basic skills training. focusing on professional competence and technical applications and enhanced management capabilities. Solar photovoltaic power generation and application of technology applies not only to higher vocational institutions. professional electronic and photovoltaic applications of new energy profession of teaching. but also as a solar PV industry induction training for staff to use the book. the solar photovoltaic engineering and technical personnel of enterprises . management. maintenance personnel. production and sales personnel and technology enthusiasts have good reference...
