## PHYSICS LAB IN A HARDWARE STORE (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Joe Hosking (illustrator). Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. PREFACE Browsing through hardware stores can be fun, interesting, and informative. Hardware stores sell tools and supplies used by mechanics, plumbers, carpenters, homeowners, hobbyists, and do-it-yourselfers. When you have-and know how to use-tools, you can demolish, disassemble, fix, or build just about anything. I was very lucky as a youngster. My grandfather, Louis Helfand, was an expert mechanic and woodworker. He came to live in my parent s house when I was about 10 years old. While he lived with us, he showed me the correct way to use and care for tools. It was through his patience, and his ability to explain the functions of tools, that I became interested in both the tools and the scientific principles that allow them to work. Grandpa took tools very seriously. He praised the ones that were well made and cursed the ones that weren t. In other words, he told it like it was. When I walk through a hard ware store today, I remember Grandpa pointing out the tools, both good and bad. Sometimes his comments made me laugh so hard that my stomach hurt. Hardware stores still hold a fascination for me. There always seem to be new, strange, nifty, cool, wonderful machines, and tools. I can look at them, touch them, examine them, and even buy them. This book is written as a guidebook to help you learn the scientific principles that make some of the tools dis played in a hardware store work. I hope that after read ing this book you will enjoy browsing through hardware stores as much as I do. Who knows? One day we might even meet in one....
