The simple fact that cloth tightly compressed into wrinkles or folds resists the penetration of dye is an opportunity—an opportunity to let the pliancy of textiles speak in making designs and patterns. People around the world have recognized this opportunity, producing resist designs in textiles by shaping and then securing cloth in various ways before dyeing. Yet in no other country has the creative potential of this basic principle been understood and applied as it has in Japan. Here, in fact, it has been expanded into a whole family of traditional resist techniques, involving first shaping the cloth by plucking, pinching, twisting, stitching, folding, pleating, and wrapping it, and then securing the shapes thus made by binding, looping, knotting, clamping, and the like. This entire family of techniques is called shibori. Designs created with shibori processes all share a softness of outline and spontaneity of effect. Spontaneity is shibori's special magic, made possible by exploiting the beauty of the fortuitous things that happen when dye enters shaped cloth. Usually it is in response to the fact that a craft is being lost that the need for preserving and documenting it arises. The motivation behind this book is no exception, but the authors have gone far beyond simple documentation. Extensive research and experimentation have led to the revival here of shibori techniques that were once well known but have now been largely forgotten in Japan. In addition to more conventional techniques, the work of contemporary fiber artists in Japan and abroad in shibori textile art and wearable art is presented, to suggest the extent of the creative innovation possible. The 104 color and...
