Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Juliet Mertz)

THE ART OF ATTACKING CHESS (PAPERBACK)

Gambit Publications Ltd, United Kingdom, 2008. Paperback. Condition: New. Language: English . Brand New Book. All chess-players love to play a smooth attacking game, flowing from start to finish, and sprinkled with spectacular ideas and sacrifices. However, few can do so regularly, and for most players, their collection of brilliancies missed far outweighs their creative successes. Innate talent plays an important role, but many of the skills needed for attacking chess can be learnt by study and practice. Here, one of the world's most experienced annotators has selected 33 superb examples, and explained them in a way that strips away the mystery. We see how the decision to attack is made, and which positional factors led to that decision being justified. We observe either a gradual build-up, or a lightning-fast storm, and understand why one approach or the other was necessary. Finally, we witness the final execution of the tactical blows. To check that we have truly grasped the ideas, Franco presents us with plentiful exercises, where it is we who have to perform the heroics.
