## BUILD AN HTML5 GAME A DEVELOPERS GUIDE WITH CSS3 AND JAVASCRIPT

No Starch Press. Paperback. Condition: New. 240 pages. Dimensions: 9.2in. x 7.0in. x 0.6in. Make your own game without learning any new languages! With just HTML, CSS, and JavaScript in your toolbox, you can create a truly cross-platform game, playable on both desktop and mobile browsers. In Build an HTML5 Game, author Karl Bunyan shows you how to create browser-based games by walking you through an in-depth tutorial on building a classic favorite, the bubble shooter. Along the way, you'll learn how to: Send sprites zooming around the screen with JavaScript animations Cause exploding effects with a jQuery plugin Use hitboxes and a bit of geometry to detect collisions Implement game logic to display levels and respond to player input Convey changes in game state through animation and sound Add flair to a game interface with CSS transitions and transformations Gain pixel-level control over the game display with the canvas Hit the ground running as you start programming the bubble shooter from the very first chapter. Exercises at the end of each chapter test your new skills by challenging you to dig into the bubble shooter's code and modify the game. You can create a complete game right now, with skills that you already have. Let Build an HTML5 Game teach you the basics, and then transfer that knowledge to create any game you can imagine. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
