RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 132 pages. Dimensions: 9.7in. x 7.4in. x 0.3in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1913 edition. Excerpt: . . . of a number of nymphs, collected at the same time and place near the Kansas University campus, nine were taken at random. These were probably of the same age, for they were of approximately equal size, ranging from 12 to 14 mm. in length. 4 Older Nymphs. --Two of them, one 26 mm. long, wing stubs 6 mm. ; the other 33 mm. long, wing stubs 9 mm. Both were collected by W. R. B. Robertson in Dickinson Co., Kansas. Adults. --Two were furnished by Mr. Robertson from the locality mentioned above. Three were furnished by the Kansas University Zoology Department, two of them being *S. americana* and the other 5. *alutacea*. The average measurement of dried adult specimens was 44 mm. exclusive of wings. All material was fixed with Flemming and stained with Heidenhain's iron hematoxylin. III. Observations. I. Comparison of Chromosomes....
