## Intelligent Multimedia Multi-Agent Systems: A Human-Centered Approach (Hardback)

By Rajiv Khosla, Ishwar K. Sethi, Ernesto Damiani

Springer, Netherlands, 2000. Hardback. Condition: New. 2000 ed.. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Intelligent Multimedia Multi-Agent Systems focuses on building intelligent successful systems. The book adopts a human-centered approach and considers various pragmatic issues and problems in areas like intelligent systems, software engineering, multimedia databases, electronic commerce, data mining, enterprise modeling and human-computer interaction for developing a human-centered virtual machine. The authors describe an ontology of the human-centered virtual machine which includes four components: activity-centered analysis component, problem solving adapter component, transformation agent component, and multimedia based interpretation component. These four components capture the external and internal planes of the system development spectrum. They integrate the physical, social and organizational reality on the external plane with stakeholder goals, tasks and incentives, and organization culture on the internal plane. The human-centered virtual machine and its four components are used for developing intelligent multimedia multi-agent systems in areas like medical decision support and health informatics, medical image retrieval, e-commerce, face detection and annotation, internet games and sales recruitment. The applications in these areas help to expound various aspects of the human-centered virtual machine including, human-centered domain modeling, distributed intelligence and communication, perceptual and cognitive task modeling,...

### Reviews

*An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It has been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.*

-- Beverly Hoppe

*Extremely helpful for all classes of individuals. Better than never, though I am quite late in starting to read this one. I realized this publication from my father and dad suggested this ebook to discover.*
