Numbers and Other Math Ideas Come Alive

By Theoni Pappas

Wide World Publishing, U.S. Paperback. Book Condition: new. BRAND NEW, Numbers and Other Math Ideas Come Alive, Theoni Pappas, Most people don't think about numbers, or take them for granted. For the average person numbers are looked upon as cold, clinical, inanimate objects. Math ideas are viewed as something to get a job done or a problem solved. Get ready for a big surprise with Numbers and Other Math Ideas Come Alive. Pappas explores mathematical ideas by looking behind the scenes of what numbers, points, lines, and other concepts are saying and thinking. In each story, properties and characteristics of math ideas are entertainingly uncovered and explained through the dialogues and actions of its math characters. In fact, you forget that you are actually learning mathematics as you get caught up in the characters' private lives, secrets and how they interact with one another. You may even forget that these math actors come from the imaginary worlds of mathematics. They seem so real! This is the crux of Numbers and Other Math Ideas Come Alive - number and math ideas tell their own stories in their own words. As you read these stories you will be amazed at how math ideas...
