Createspace, United States, 2008. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Energy Saving Tips That Will Save You MONEY was developed as a resource for the Eco-Environmental Corporation to help people discover unknown expenses in their electric and gas consumption. By reducing these expenses we can not only help save the environment from the harmful byproducts of electric and gas use, but we can also save money at the same time! This book contains hundreds of FREE as well as Low-Cost solutions for saving money that just about anyone can do themselves. These techniques address two of the biggest issues facing our society and country today, preserving the Earth s Ecological state while providing renewable energies for citizens, and cutting waste and consumption of these energy sources, in turn, saving millions of dollars per year. Energy Saving Tips That Will Save You MONEY is a straight forward, no non-sense book which cuts right to the chase, and shows you what you can do NOW to save, and what you can do in the future to save even more!.
