Learning Express Llc, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book. This compact math refresher is targeted specifically towards law enforcement examinations. Whether you re taking a local, county, state, or federal agency law enforcement exam, it s tough to join this elite group dedicated to serving and protecting. Candidates can boost their chances by improving their math skills. Why? Because math is often the toughest section of law enforcement exams and certainly one of the most stressful for many. Math for Law Enforcement helps improve your chances for success, with: Targeted practice questions, including basic math (addition, subtraction, multiplication, division, fractions, graphing, and more), logic, and word problems based on real-life scenarios Additional online practice with detailed answers and explanations and a customized score report, so candidates can see where they need extra help Vital information ranging from how to reduce test anxiety to understanding how standardized tests work to how to pass both the written and practical exams The exclusive nine-step LearningExpress study protocol proven to get positive results Oftentimes, people develop a fear of mathematics that is so evident that it hinders their performance on state and career examinations. After becoming acquainted with LearningExpress s study protocol, test takers will learn effective strategies to combat their nervous anxieties and approach the exam with the utmost confidence. Math for Law Enforcement is far more than test prep book only focused on building mathematical skills. It is a guide that strives to help prepare and produce the most well-rounded test taker. It is near impossible for a test taker to walk into the Law Enforcement exam and not exit having completed the hardest, most grueling section of the exam with excellence.
