

El Producto Interno Bruto: Una Historia Breve Pero Entranable (Paperback)

Filesize: 2.33 MB

Reviews

*A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.
(Mitchell Kuhn III)*

EL PRODUCTO INTERNO BRUTO: UNA HISTORIA BREVE PERO ENTRANABLE (PAPERBACK)

Fondo de Cultura Economica USA, 2017. Paperback. Condition: New. Translation. Language: Spanish . Brand New Book. The Gross Domestic Product (GDP) was created during 1940s. It s a key indicator of economic policy, and it s considered as rule to measure the significance of a country s economy, and it s a common base for other important indicators, such as fiscal deficit and the human development index (HDI). Diane Coyle reminds us that this instrument is not supposed to turn into a fetish; on the contrary, since it possesses a history that explains its consolidation, along with a structure and strategies that show the conception of economy from those who postulate it. Nonetheless, the GDP is currently one of the most important indicators; if its scope and limitations are understood, it can fight the biggest challenges of inequality, well-being, and sustainability.
