Macmillan Education, United Kingdom, 2011. DVD-ROM. Condition: New. Language: English . Brand New Book. Hot Spot 5 is primarily a revision course with a strong focus on skills and vocabulary development. The grammar syllabus is predominantly a revision of levels 1-4 but some new (minor) grammar areas will provide opportunities for further vocabulary expansion. Level 5 is aimed at 15-year-olds and will have a much older feel than the previous levels of Hot Spot. Topics will be suited to the 15-year-old and will expand their knowledge of the world. There will be a lot less illustrated artwork and many more photos to appeal to that age range. Hot Spot 5 will also have the following additional features: word power sections comprising word building exercises (e.g. make and do, verbs with prepositions, collocations with on/get, verb/noun/adjective prefixes and suffixes, etc); an increase in the amount of skills work in all lessons; extra reading sections that will replace the Extra Specials (projects remain in these sections) and will include a variety of genres including stories, non-fiction, poems and plays, these texts will also be recorded; and, exam practice sections in the style of PET as well as some national state exams. Instead of packaging the CD-Rom with the Student s Book, we will be providing an MPO with further exam practice. Please note that the Teacher s Book will not be interleaved with SB pages for level 5 but will still include a Test CD at the back of the book and a photocopiable resources section. In addition to the photocopyables, the Teacher s Book will also contain extra grammar lessons for those classes ready to be introduced to more advanced grammar areas such as present perfect continuous, third conditional.
