HEALTH IN THE HOUSEHOLD, OR HYGIENIC COOKERY (CLASSIC REPRINT) (PAPERBACK)**DOWNLOAD**

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Health in the Household, or Hygienic Cookery The object of this work is to enable health-seekers to furnish their tables with food that is wholesome, and at the same time palatable. The writer claims that the food products of the earth, properly grown and prepared, should be not only healthful, but to the unperverted palate, relishable, in the highest degree. Foods, as ordinarily cooked, are robbed of their own luscious flavors and rich juices by all manner of wasteful or injudicious processes by soaking, by parboiling, by Evaporation, by under-cooking, and by burning; after which one tries in vain to compensate for these defects, by adding butter, pepper, sugar, salt, and other seasonings, iad infinitum. Nature is prodigal of her fine flavors, furnishing them in infinite variety and choice abundance and all we have to do is to produce them from the soil by proper culture, and save them with frugal care. How to grow the best grains, fruits and vegetables, belongs not to the art of cookery, but to the department of agriculture and horticulture. How to prepare these products for the table, getting all the good there is in them, and adding nothing harmful thereto, is the thing sought after in the following pages.
