MULTILITERACIES: LIT LEARNING: LITERACY LEARNING AND THE DESIGN OF SOCIAL FUTURES (PAPERBACK)

Taylor Francis Ltd, United Kingdom, 1999. Paperback. Condition: New. UK ed.. Language: English . Brand New Book. Multiliteracies considers the future of literacy teaching in the context of the rapidly changing English language. Questions are raised about what constitutes appropriate literacy teaching in today s world: a world that is both a global village yet one which local diversity is increasingly important. This is a coherent and accessible overview of the work of the New London Group, with well-known international contributors bringing together their varying national experiences and differences of theoretical and political emphasis. The essays deal with issues such as: * the fundamental premises of literacy pedagogy * the effects of technological change * multilingualism and cultural diversity * social futures and their implications on language teaching. The book concludes with case studies of attempts to put the theories into practice and thereby provides a basis for dialogue with fellow educators around the world.
