Reviews

It is one of the most popular pdf. It really is full of knowledge and wisdom. It has been developed in an exceptionally easy way and it is just right after I finished reading through this publication by which it really altered me, altered the way in my opinion.

Grin Verlag. Paperback. Condition: New. 28 pages. Dimensions: 8.3in. x 5.8in. x 0.1in. Bachelor Thesis from the year 2009 in the subject Business economics - Banking, Stock Exchanges, Insurance, Accounting, grade: 1, 3, Hull University Business School (Business School), course: Independent Study, language: English, abstract: Banks always played a superior role in business and especially in our todays internationalised environment their position has become more crucial than ever before. Though, since summer 2007 these financially strong giants have been unhinged by their self-developed financial crisis that originated from the US sub-prime market. Due to the instance that the todays capital markets are interlinked worldwide, it was just a matter of months that the effects of this banking crisis unbalanced the entire global economy. Actually large banks became illiquid and the governments had to shore them up, so that the whole financial network did not go to pieces. Among others, the reason for this disaster was a lack of trust between market participants, caused by enormous amounts of toxic debts, hidden in the balance sheets of almost every bank that cannot be reliably valued or seem to be worthless. For that reason the professional world and the accounting body IASB came under fire. Especially banks and politicians accused them of having provided inadequate and in-transparent accounting standards, which led to this disaster and amplified the downturn in the world economy. Hence, not only the accounting standard for financial instruments IAS 39 is in the centre of this discussion, especially the IASBs eminently respectable fair value approach has been criticised of being useless in times when markets are absent. This paper will try finding answers if better accounting standards for financial instruments would have prevented us from this downturn in economy by analysing the origin of the financial crisis and showing the arisen...
