CRA acknowledges the powerful role of environmental contingencies in encouraging or discouraging drinking, and attempts to rearrange these contingencies so that a non-drinking lifestyle is more rewarding than a drinking one. Topics include * behavioral skills training* social and recreational counseling* marital therapy* motivational enhancement* job counseling* relapse prevention Each chapter provides detailed instructions for conducting a procedure, describes what difficulties to expect, and presents strategies for overcoming them. Sample dialogues between clients and therapists, annotated by the authors, further illuminate the treatment process. The book concludes with a chapter that both addresses the common mistakes made when implementing CRA, and emphasizes the flexibility and benefits...
