Dr William H. Elliot's Remington Double Deringer

By Douglas S. Drummond; Rudolph H. Johnson, MD; Elias J. Williams, Jr.; James W. Barnard

Graphic Publishers, 2008. Hard Cover with dust jacket. Condition: New. Collector Bookstore is a retailer of new books located in Leavenworth, Kansas. We specialize in price guides and reference books for the antiques and collectibles industry. Shortly after the American Civil War, a New York dentist-turned-firearms inventor named William H. Elliot designed a revolutionary pocket pistol to fire the .41 Short rimfire caliber metallic cartridge. At the time, it was the most powerful small handgun cartridge on the market. This compact but hard-hitting pistol was immediately embraced by riverboat gamblers, ladies of the night, messengers, travelers, shopkeepers and anyone else who needed an easily concealable, large-caliber weapon for self defense. Its novel design featured twin, over-and-under barrels that swung open from a top hinge for loading and cartridge extraction, a "spur" trigger and large, comfortable grips. This was one, but not the first, of the more than 130 firearms patents Dr. Elliot would be granted over the last half of the nineteenth century. To manufacture his new pistol, Dr. Elliot contracted with the E. Remington & Sons arms firm in upstate New York, which by 1867 had been in the gunmaking business for more than fifty years. The Remington Double...
