There is a deep spiritual connection between Native American people and the earth. Tribal communities are strongly committed to the restoration and protection of the natural environment, including surface and ground water resources. These rivers, lakes, streams, reservoirs, wetlands, estuaries, and coastal waters sustain fish and shellfish, provide recreational opportunities, supply drinking water, and allow ceremonial uses for many tribal communities. However, many water resources are threatened or impaired by polluted runoff, also known as nonpoint source (NPS) pollution. The goal of this handbook is to provide tribes with guidance and other information that will help them to protect and restore water resources. Congress amended the Clean Water Act (CWA) in 1987 to establish the section 319 Nonpoint Source Management Program in recognition of the need for greater federal leadership to help focus state, tribal, and local nonpoint source efforts. Under section 319, states, territories, and Indian tribes receive grant money that supports a wide variety of activities including technical assistance, financial assistance, education, training, technology transfer, demonstration projects, and monitoring to assess the success of implementing management practices that address pollution from nonpoint sources. As of the time of publication of this document, 159 tribes have approved nonpoint source programs. Tribal water quality programs continue to increase in number and to mature in their capacity to understand and improve the condition of reservation lakes, rivers, streams, wetlands, and coastal waters. In support of the continued growth and sophistication of tribal participation in the CWA section 319 program, the U.S. Environmental Protection Agency (EPA) is pleased to release this Handbook for Developing and Managing Tribal Nonpoint Source Pollution Programs Under Section 319 of the Clean Water Act. EPA is committed to restoring...
