It hangs on everyones lips from the first miles of the morning commute until the screeching alarm clock starts yet another day. This book describes a simple, straightforward method readers can learn and practice to literally transform stress by shifting the hearts own rhythms. The benefits from using this system are remarkable and far-reaching: blood pressure drops, stress hormone levels fall, immune system activity increases, and anti-aging hormone levels rise. Through its interactive learning system, this book teaches readers to use the HeartMath method, enabling them to see and experience in real time how thoughts and emotions affect their heart rhythms....
