

The Fabric of Space Gravity

By Rodney Kawecki

America Star Books, United States, 2013. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.The Fabric of Space Gravity explains the pros and cons about the interstellar space field and possibilities of space travel that includes speculation about time travel and how wormholes and time machines may not at all be a resolution for traveling astronomical distances in space in the future. Rodney Kawecki adventures introducing what he calls Instantaneous Space Travel as the fastest a ship can travel through the cosmos without becoming pressed to traveling backwards or forwards in time. He believes that time travel may not be an adequate explanation to shorten the great distances one faces traveling between galaxy s and star systems. He explains how instantaneous space travel relative to the zero gravity fabric of space may not at all retain the element of gravity that calls to having to travel in the fourth dimension. In the blink of an eye may be the only remedy traveling from point a to point b putting all speculations of space travel in an equation for space travel that allows only the intermediate means for maximum velocity based...

Reviews

This ebook can be worthy of a read, and much better than other. I have read and i am certain that i am going to planning to go through again once again in the future. You may like just how the writer compose this book.

-- Mr. Grant Stanton PhD

A whole new eBook with an all new standpoint. It is actually rally fascinating throug reading through time period. You wont truly feel monotony at anytime of your own time (that's what catalogues are for relating to when you request me).

-- Claire Bartell
