Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.I wrote this book to help others find a job. I am not going to try to out-intellectualize you - I mean outsmart you. I just want to show you a nice little road map covering all the bases within the employment process. From cradle to grave. I hate that term. Anyway, this road map will be what you will need to do, step by step, to put yourself into the best position to get the career you wish to pursue. These ideas come from a recruiter's perspective. I have spent time in staffing and in human resources both as a contractor and permanent employee and learned a lot. The thing I learned most from the inside is what hiring managers are thinking. What they are looking for in a candidate and, more specifically, what they're not. From what types of resumes are being looked at these days - and, yes, there are ways to easily get yours thrown into the trash, even if you have the skills, if you don't present them properly - to recruiter blacklists that can permanently take you out of the entire recruiting process for companies you may be targeting. Some of the topics I cover may inspire additional research on your end. That would be nice. Some might lead to an entirely new way of setting priorities, developing and managing your schedule, making task lists and networking full time. That would be the goal. Some of this information may build you an entirely new perspective on your life. That would be flattering. I'm not going to change your entire life with this book, as some career experts preach....
