Andrew had no intention of ever going back home. But circumstances force him to face his painful past and the friend who betrayed him. Andrew Finley has no intention of going back to his hometown-ever. After he s caught hacking into the CIA, he builds himself a new life as a computer guy for the very government agency he hacked. But over the past few months, something has been bothering him, and his boss is acting more paranoid than usual. Every time an operation fails, Andrew collects information that could prove someone is selling secrets. Now he s pretty sure his boss is trying to kill him, so he has no choice but to go back home to buy some time. Home may be more dangerous than facing his boss. Nine years ago, his former best friend and first crush Teddy betrayed him, and let his evil sister and her minions send him running. But he s back now and not everything is as clear-cut as he thought. Teddy may not be a Judas but can Andrew catch his fireman without getting burned, or is coming home going to kill him? One corrupt boss, one evil sister, enough family drama to fill a dozen daytime chat shows and an ex-best friend whom he s been in love with for half his life makes for one hell of an interesting trip home.
