Center for Progressive Economics, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book is about political macroeconomics which is the economic discipline that studies the overall condition and behavior of a country s economy. The size of the macroeconomic pie is unlimited. The age of scarcity is over, because the current capacity and productivity of the private sector can grow and produce all the goods and services that everyone needs as long we use proper resource conservation. We just can t produce and distribute it properly! I will describe the solutions in U.S. terms, but they apply to the global economy. Let me state this loud and clear: the macroeconomic systems of the world are in need of change! The proper macroeconomic philosophy will free the politicians from fighting about philosophy, and it will allow them to argue and compromise over the specifics of implementation. The debate between the 19th Century Laissez-faire Libertarian economics and the 20th Century Keynesian Economics has gone on long enough! Both are not complete enough to create a 21st Century Win-Win Economy. I will take the most successful parts from each philosophy and add to them the proper money creation and distribution systems. The political economic debate that continually splits our country and our leaders is a vicious cycle that can be stopped. Arguments over tax and spend (fiscal policy), and the so-called national debt are not the answer to our economic problems. Fiscal policy was not the cause of the Great Recession, Great Depression, or any other economic downturn; therefore, it cannot be the solution! What is the solution? I have one. The solution that I propose is nonpartisan; it is purely based on economic logic and reasoning. This book is not an exhaustive description and defense...
